How can you use the ternary operator in PHP to shorten this if statement?

```
$num = 5;
// Using if statement
if ($num > 0) {
$result = 'positive';
}
if ($num < 0 {
$result = 'negative';
if( $num < -10) {
$result = 'value is below -10';
}
}
else {
$result = 'its zero';
}
```

Solution:
